

Litan®

力炭-竹炭纖維
Bamboo Charcoal Yarn

Litan® 竹炭抗菌纖維除了本身竹炭所具備的天然功能之外，另在纖維製造過程中添加奈米無機系抗菌等複合材料，因此 Litan® 不僅可調節濕氣，產生遠紅外線，達到促進血液循環之需求；還具釋放負離子，抑制細菌滋長及除臭等多重功能。

Litan® is an antibacterial bamboo charcoal fiber which naturally regulates humidity and stimulates blood circulation. Litan's antibacterial properties are enhanced by the addition of antibacterial nano materials during the polymerization process. Litan is antibacterial, deodorizing, and humidity regulating.
